ARCHIPELAGO OF CREATIVES
Islands of Makers

The Philippines enjoys a well-deserved international reputation for creativity. Similar to its scattered islands, the creative industries cover a wide array of subsectors including advertising, animation, architecture, crafts, cultural heritage activities, design, film, literature, music, new media, performing arts, communication design, publishing, and visual arts.

Aiming to harness this pool of creativity, the Department of Trade and Industry (DTI), through the Center for International Trade Expositions and Missions (CITEM), has launched "The Philippines Creative Industries" -- two simultaneous trade shows that will promote the lucrative economic potential of the country's creative industries and its subgroups.

CREATE Philippines

Coinciding with the 66th edition of Manila FAME, CREATE Philippines was launched by the Department of Trade and Industry (DTI), through the Center for International Trade Expositions and Missions (CITEM), to promote the creative industry and its subgroups' lucrative economic potential. The event highlights the fast-growing sectors of Visual Arts & Graphic Design, Advertising Content & Production, Film & Animation, Digital Games & Apps, Music & Performing Arts, and Communication Design.

CREATE Philippines is an official trade activity of the ASEAN Summit 2017 under the ASEAN 2017 Committee on Business and Investment Promotions (CBIP) led by Undersecretary Nora K. Terrado of the Department of Trade and Industry (DTI).

COMPONENTS

FORUM

CREATIVE HUB AND TALKS (C.H.A.T)

With the theme "Developing an International Market for Filipino Creative Content and Creative Services," C.H.A.T. is an information and knowledge-sharing venue where creative professionals and practitioners can exchange ideas, update knowledge and explore collaborations. This will also serve as a platform for industry leaders and influencers to present their respective vision and initiatives towards a globally competitive Philippine and ASEAN Creative Economy.

EXHIBITION

ARTALIVE

A showcase of the Philippines' creative heritage featuring (1) the pre-conquest artistic expressions and crafting traditions; (2) the contemporary products of creativity as featured in Manila FAME; and (3) the modern global influences in the fields of design, visual communication, music, animation and film. ArtAlive will include three touchpoints:

- **CREATION STATION** - Live demonstrations of traditional crafts, textile and basketry weaving, instrument-making and other forms of creative expressions that aim to give visitors and buyers a glimpse of the rich heritage of the "Archipelago of Creatives" and the work that is put into each Philippine hand-crafted product.

- **UNIVERSITY INSTALLATIONS** - Exceptional work by students, young artists, and industry experts will punctuate the various areas within the exhibition ground, adding creative energy to the whole CREATE Philippines.

- **INTERACTIVE GAMING PODS** - Listen, learn, and play. Show visitors will get the opportunity to interact with newly developed games and apps, watch animations, and/or listen to music through this interactive exhibit of anything and everything that is techie and creative.

SPECIAL EVENTS

MUSIC FEST

With music as one of the Philippines' strongest creative assets, CREATE Philippines looks to promote music as a significant contributor to the creative economy. During the three-day event, pocket performances featuring homegrown, independent and mainstream artists will showcase yet another dimension of Filipino creativity. This will serve as a prelude to an industry-led participation in international music festivals carrying the banner of CREATE Philippines as a country-branded promotion of the local music industry.

INTERACTIVE SESSIONS

CREATOR360

An event that will showcase groundbreaking and socially relevant creative content and innovations from the industry, CREATOR360 celebrates creativity and innovation in the age of information and digital connectivity. The event puts the spotlights on the new generation of creatives, inventors, entrepreneurs, and business leaders who are poised to make their mark on the industry.

As chairman of the Association of the Southeast Asian Nations (ASEAN) 2017, the Philippine government vows to promote unity with and among ASEAN member states and its global partners. Following the theme "Partnering for Change Engaging the World," the Philippines invites everyone to become dynamic and vibrant allies in envisioning and attaining a future where all citizens prosper.

CREATE Philippines is an official trade activity of the ASEAN Summit 2017 under the ASEAN 2017 Committee on Business and Investment Promotion (CBIP).

Chaired by Nora K. Terrado, DTI's Undersecretary for the Trade and Industry Promotion Group, the CBIP is an inter-agency committee created to assist the ASEAN-National Organizing Council (NOC) in the Philippines' hosting of ASEAN 2017. CBIP's main responsibility is engaging the international business community, investors, government, and other parties, as well as organizing and supervising potential business and investment-related activities.

CBIP also developed the ASEAN 2017 Business and Investment Program, with events and activities complementing and reinforcing the Philippines' ASEAN 2017 hosting. The program focuses on Regulatory Coherence, Micro, Small, and Medium Enterprises (MSMEs), Women and Youth Entrepreneurship, and Innovation.
